SUMMARY

Skilled Full-Stack Developer with a BSc in Computer Science, experienced in leading and implementing end-to-end web solutions using technologies like Java, Spring Framework, SQL, React.js, and AWS. Proficient in agile project management, front-end and back-end development, and cloud services. Demonstrates strong problem-solving abilities, cross-functional collaboration, and a commitment to technical innovation and continuous improvement.

SKILLS

- | | | | | |
|---------------|--------------|------------|-----------------|------------|
| ● Java | ● JavaScript | ● AWS | ● Jenkins | ● REST API |
| ● Spring Boot | ● HTML | ● React.js | ● Microservices | ● Node.js |
| ● SQL | ● CSS | ● Git | ● Unix | ● Docker |

EXPERIENCE

Software Developer Intern

Emerald Hills Institute

November 2023 - Present

Utah, US

- Working as a full-stack software developer in an agile environment to iteratively develop and support projects.
- Development and maintenance of WordPress websites, focusing on responsive design for optimal user experience.
- Implementing features and fixing bugs across the whole stack.
- Managed SQL databases to maintain data integrity and applied agile methodologies for efficient project delivery.
- Communicating technical concepts effectively to non-technical team members to facilitate decision-making.
- Tools: React.js, HTML, CSS, JavaScript, WordPress, Hostinger, Java, Spring Framework, MySQL

PROJECTS

FitFlow360 / Full-stack Application

Present

- Developing a full-stack fitness application designed to empower users in creating and tracking personalized workout plans.
- Implemented responsive and intuitive front-end interfaces using React.js, JavaScript, HTML, CSS, and Bootstrap.
- Developed secure and efficient back-end functionalities with Spring Boot.
- Implemented Spring Security to establish Authentication and Authorization.
- Integrated MongoDB for seamless data storage and retrieval, ensuring a smooth user experience.
- Tools: Spring Framework, React.js, JavaScript, HTML, CSS, Bootstrap, MongoDB, AWS EC2, Maven

MyTaskManager / Full-stack Application

November 2023

- Developed a robust task manager application that seamlessly integrates user-friendly interfaces with powerful Spring Boot backend functionality.
- Designed responsive and intuitive React.js interfaces, integrating Bootstrap to create visually appealing layouts.
- Developed robust back-end services using Spring Boot, ensuring efficient data processing and API management.
- Designed and managed MySQL databases, optimizing data storage, retrieval, and security.
- Implemented Spring Security to establish Authentication and Authorization and to maintain secure connection to API endpoints.
- Tools: Spring Framework, React.js, JavaScript, HTML, CSS, Bootstrap, MySQL, AWS EC2, Maven

EDUCATION

Bachelor of Science, Computer Science, University of Texas at San Antonio

GPA: 3.69 / 4.0

May 2023

- Dean's List 2021 and 2022
- Honor Roll 2022 and 2023
- National Science Foundation UTSA I-FOCUS-CS Scholarship 2023
